

**AES DRILLING FLUIDS**

## **BENEFITS**

- Effectively reduces yield point and gel strengths
- Reduces surge pressures and friction pressure losses

## **APPLICATIONS**

- ENERSPERSE is a component for the EnerREACH system
- Typically additions of 0.25 lb/bbl are effective to treat the active system
- Supplemental treatment recommended prior to logging and casing runs

## **PHYSICAL PROPERTIES**

- Appearance: Light tan powder
- Specific Gravity: 0.87
- Flash Point: >240°F

# **ENERSPERSE<sup>†</sup>**

ENERSPERSE is a concentrated dispersant/thinner designed to reduce viscosity in the EnerREACH<sup>†</sup> system

ENERSPERSE dispersant/thinner

## **Treatment Recommendations**

Typical additions of 0.25 lb/bbl as part of treating the active system; although, higher concentrations may be required for more extreme conditions. ENERSPERSE can be used as a supplemental treatment prior to logging and casing runs.

Pilot testing recommended to determine the appropriate concentration for a specific scenario.

## **Packaging and Handling**

ENERSPERSE is available in 5 gal pails and 55 gal drums. Handle ENERSPERSE as an industrial chemical, wearing protective equipment and observing precautions as described in the Safety Data Sheet (SDS).
