

FALFURRIAS FACILITY

Warehouse and Liquid Mud Plant

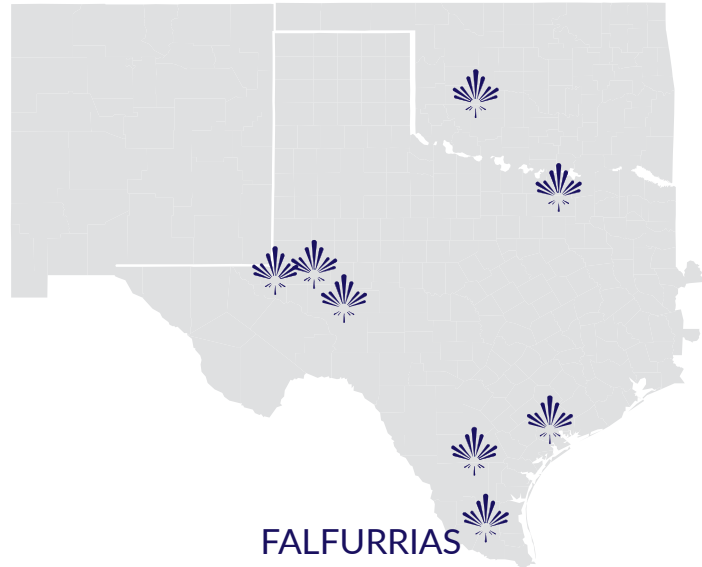

The Falfurrias facility in Brooks County is located on 5 acres featuring a 8,000 square foot warehouse, mixing facility, and bulk storage. Falfurrias operates on 24-hour regional dispatch with a mud engineer on duty at all times to perform required mud checks in the on-site mud testing lab.

FACILITY OVERVIEW

The Falfurrias facility services the Gulf Coast with a full mixing facility and chemical warehouse. The liquid mud plant supports oil-based drilling fluids.

Chemical inventory includes key drilling fluid additives including bulk barite and lost circulation material. Chemical storage is available in the 8,000 square foot warehouse or outdoors in dedicated areas on the 5 acre site.

AES Drilling Fluids is constantly upgrading facilities to meet the needs of its customers. Confirm the latest capabilities and locations with an AES account manager.
