

# WEST DECATUR FACILITY

## Warehouse and Liquid Mud Plant

The West Decatur facility in Clearfield County sits on 16 acres featuring a 10,500 square foot warehouse, mixing facility and bulk storage. West Decatur operates on 24-hour regional dispatch with a mud engineer on call at all times to perform required mud checks in the on-site mud testing lab.

### FACILITY OVERVIEW

The West Decatur facility services the Northeast region with a full mixing facility and chemical warehouse. The liquid mud plant supports water-base, oil-base, or synthetic-base drilling fluids.

Chemical inventory includes key drilling fluid additives such as bulk barite and lost circulation material. Chemical storage is available in the 10,500 square foot warehouse or outdoors in dedicated areas on the 16 acre site.

AES Drilling Fluids is constantly upgrading facilities to meet the needs of its customers. Confirm the latest capabilities and locations with an AES account manager.
