CANONSBURG, PENNSYLVANIA

# CANONSBURG SUPPORT SERVICE CENTER

The Canonsburg Support Service Lab is located adjacent to the Northeast Division headquarters office. The 540 square foot lab space is equipped to provide rapid response troubleshooting and quality control.

## FACILITY OVERVIEW

The Canonsburg Field Support Service Lab provides a full suite of equipment for drilling fluid evaluation and troubleshooting.

Rolling ovens provide broad pilot testing capability to optimize treatments and a laser particle analyzer identifies the accumulation of fine solids. More complex challenges are supported as needed with equipment and experts from the Houston and Midland Support Service Centers.

AES Drilling Fluids is constantly upgrading facilities to meet the needs of its customers. Confirm the latest capabilities and locations with an AES account manager.

## SELECT EQUIPMENT

Full suite of equipment for API 13B-1 and 13B-2 water-, oil-, and synthetic-based drilling fluid checks

Horiba LA-300 laser diffraction particle size analyzer

Dynamic ageing ovens

Digital EP lubricity meter

Retort Station

AES Drilling Fluids has multiple Labs, Warehouses and Mud Plant Facilities Supporting the Northeastern United States.

The Canonsburg Support Service Center specializes in services for customer projects, operations support, and new product development.
