

AES DRILLING FLUIDS

CLINTON FACILITY

3940 Custer Ave.
Clinton, OK 73601

www.aesfluids.com

The Clinton facility features a 20,000 square foot warehouse and a 3,000 square foot covered loading area. It offers a full mixing facility for blend and reconditioning drilling fluids. Clinton operates on 24-hour regional dispatch with a mud engineer on call to perform required mud checks in the on-site mud testing lab.

The Clinton facility services the Mid-Continent region with a full mixing facility and chemical warehouse. The liquid mud plant supports oil-base drilling fluids.

Chemical inventory includes key drilling fluid additives including bulk barite and lost circulation material. Chemical storage is available in the 20,000 square foot warehouse or in dedicated areas in the yard.

AES Drilling Fluids is constantly upgrading facilities to meet the needs of its customers. Confirm the latest capabilities and locations with an AES account manager.

STORAGE

20,000 sq ft warehouse
3,000 sq ft covered unloading area
15,400 bbl bulk liquid mud
29,000 sacks bulk barite
1,700 bbl diesel
300 bbl freshwater
1,700 bbl CaCl_2 storage tanks

MIXING

2 x 500 bbl mixing tank

EQUIPMENT

Mud lab (quality control)
Forklifts (4)
Boom lift (1)

The Clinton Facility has its own rail spur which receives barite directly from our sister company, Superior Weighting Products, out of its Corpus Christi grinding facility.
